Dear Eva and Peter

I like to apologize for not attending the CCE-meeting in Mauritius. Mainly due to the long distance travelling and also to the lack of travelling funds, I am not able to attend the 20th ICCE conference.

However as NR - CCE for Belgium, I like to keep in touch with CCE. As I told already at the Torino-meeting one of my interests concerns ideas and educational patterns to introduce the topic of ' Green /sustainable chemistry ' in the curricula for secondary school chemistry.

I wish you and all CCE members a good meeting at Mauritius !

Ludo Brandt
